## **Write From The Heart Creative Writing Workshops** *For Adults, Children, and Teens*

Nurturing Writers of All Ages... since 2001

One Writer. One Mission. To keep creativity alive in a world losing sight of its soul. For years, Melissa's gentle, be-who-you-are workshops have introduced writing as a way to bring calm and joy back into our lives. Words to describe her work? Fun, silly, provocative, daring, tender, soothing, and just slightly left of center. Through warmth, kindness, and a touch of mischief, her classes illuminate wonder, beauty, and hope, while guiding us to find our own voice. No grades, grammar, punctuation, or red pen.
